Descendants of the Eunuch Admiral

written by Kuo Pao Kun
directed by Ong Keng Sen

"Then father brought a box before me and opened it carefully. The content was covered in dry husk. He shuffled the surface layer and uncovered a packet wrapped in heavily oiled paper. Unwrapping the paper, I saw before me a piece of something which was evidently deep-fried in oil to keep dry and antiseptic. Instinctively, I knew: This was my severed penis, my treasure."
