INSOMNIA: GENERATING ACTIVITIES FOR INSOMNIAC COMMUNITIES
CURATED BY ONG KENG SEN

Singapore's new generation of musicians, directors and visual artists are riding the crest of a wave. Expanding artistic dialogues among Singapore's diverse ethnic groups, within South East Asia and between East and West, have stimulated a unique creative response. At the ICA, acclaimed artist Ong Keng Sen draws together these strands to present an up-to-the-minute survey of Singaporean contemporary arts.

Presented by artists and arts collectives largely from Singapore and Southeast Asia and across many disciplines, the programme at the ICA will include clubbing, music, video, installations and happenings. Highlights include *The Continuum - Beyond the Killing Fields* (25-27 February) and *The Global Soul - the Buddha Project* (10-12 March), both presented by Ong Keng Sen's acclaimed TheatreWorks. A meditation on travel - in time, emotion, meaning and imagination - *The Global Soul* is a journey to a dream destination, to a place where anything is possible. Fasten your seatbelts and breathe normally.

"The beauty of *The Global Soul* glitters in multi-faceted ways: perfect pictures, enchanting voices and lots of action"
