DANCE DANCE DANCE

*"Whatever you may be thinking, you can't resist.
The story's already decided".
Haruki Murakami*

 Inspired by Murakami's novel, **DANCE DANCE DANCE** is a quirky musing on everyday life. Combining dance, movements, images and the human body for a full sensory experience, **DANCE DANCE DANCE** promises to excite you with its provocative charm. Bodies moving into space, bodies moving with space; bodies moving with images, bodies moving into images; this multi-disciplinary performance is a visual feast that entralls and engages the mind and senses.
